Dear Lifelong Learners,

As the hot summer months begin to wane and we look forward to cooler weather, Lifelong Learning of Hilton Head Island is excited to present our exciting fall line-up of classes. For nature lovers, history buffs, lovers of ballet and dance... we've got something for you. There's a Supreme Court class, one focused on the Electoral College, and one exploring the recent banking crisis. That's just a sampling of your fall term. I hope you will take some time to choose the ones that most fit your interests.

Because we have had such great success with enrollments during the last two semesters, we have decided to lower the cost of the semester once again to only \$50. As always, this amount allows you to take as many classes as you wish!

Last year, LLHHI and Art League Academy of Hilton Head worked in collaboration to present a wonderful exhibit which included some of our members' artwork. One success naturally leads to another and there will be an encore art exhibition this fall. This will be free and open to the public from Monday, October 16 through to Wednesday, October 25. A wine and cheese reception for the artists will be held at Art League Academy on Cordillo Parkway, Wednesday, October 18 from 5:00 to 7:00 pm. You are cordially invited.

The entire LLHHI Board and Curriculum Committee are looking forward to a new academic year of entertaining and educational classes. We hope you are too.

My very best to you,

Kristen Sakati, President, Lifelong learning of Hilton Head Island

The exhibit will be held at:

**Art Academy, 106 Cordillo Parkway on October 16th to 25th  
from 10:00 AM to 2:00 PM each day  
and is open to the public free of charge.**

**A wine and cheese reception, which is also  
free and open to the public, will be held on  
October 18th from 5:00 to 7:00 PM.**

At this time visitors will choose their favorite artist rendition and pair during a People’s Choice award ceremony.

## \* **Originalism: The Supreme Court and the Constitution**

In recent years, as the Supreme Court has become more conservative, the doctrine of originalism (hewing to the original meaning of the Framers) has taken on new importance in its decision making. This class will examine the history of originalism; the politicization of the originalist methodology; and its influence on major issues of our times. Attendees, as “Justices of the Supreme Court of Hilton Head,” will be free to weigh in with their opinions.

**October 9: The History** — Originalism is a theory of constitutional interpretation, which has been applied by the current Supreme Court in several critical decisions. We will explore the roots of this methodology and the contributions to the theory’s development by two prominent pioneers of originalism, Judge Bork and Justice Scalia. We will then examine the “politicization” of the methodology.

**October 16: School Desegregation** — We will discuss the difficulty that originalists have in justifying the result in *Brown v. Board of Education* and the understanding of the drafters of the equal protection clause. We will then discuss what most people do not appreciate about the State of South Carolina’s contribution to the *Brown* decision in the case of *Briggs v. Elliot* and attempt to clarify precisely what Chief Justice Warren’s opinion said.

**October 23: Gun Rights** — We will explore the majority originalist opinion delivered by Justice Scalia in the *Heller* case deciding the Second Amendment provides an individual the right to possess a gun in his home and the minority originalist opinion offered by Justice Stevens coming to the opposite conclusion.

**October 30: Abortion** — We will analyze the originalist foundation for Justice Alito’s opinion in *Dobbs* overturning *Roe v. Wade*; specifically, his history of selected states abortion statutes and the meaning of the 14th Amendment. We will also explore if there is an originalist foundation for Judge Thomas’ concurring opinion that the Court should also reverse its decision which provided for same sex marriages.

*Charlie Sanders is one of our most popular presenters. He probably enjoys giving the course slightly more than the many "Justices" attending.*

**Four Sessions: 1:30 to 3:30 PM, Mondays**

## \* Why Banks Fail

If you have a bank account, which most of us do, hearing about bank failures recently has not been fun and, to many, quite unsettling. Keeping your money in a bank is supposed to be boring and safe and should not require you to run to the medicine cabinet for an aspirin even when you see it on the business news.

This presentation, will discuss why banks fail, the causes of today's bank failures, and some of the causes of bank failures in the past.

The presentation will introduce some concepts of sound banking practices, that, once violated, can cause even the largest banks to fail. These concepts will be non-technical and easy to understand. A dose of the history of bank failures in the U.S. will be thrown in for good measure.

If you have ever wanted to draw and paint a subject in a spontaneous way, this course is for you. Using an ink pen and watercolors, you will learn the fundamentals of how to simplify your scene and how to position the subject to create a strong, lively composition. Each class begins with a demonstration specific to the day's learning. Beginners will be comfortable in this class, and those with more experience will be challenged.   - 1 Yellow of your choice
  - 2 Greens: (1 dark green/Hookers Green and 1 yellow green/Sap Green)

## \* Slavery and the Civil War

In our winter/spring session, Joe Melita took us through the pivotal points in the founding of our nation. He returns this fall to remind us of the greatest threat the young republic ever faced . . . the run up to the Civil War, its fighting, and aftermath.

**October 11:** Why was African slavery introduced into England's American colonies and how did the institution evolve into one of total deprivation of all human rights, dignity, and the odious legacy that lingers to this day?

**October 18:** How did slavery contribute to secession and civil war and why did the spirit of compromise fail to avert that tragic conflict?

**October 25:** How did the Lincoln Administration fight and win the Civil War thereby restoring the Union?

**November 1:** How did the Civil War and the so-called Civil War Constitutional Amendments alter the status of African Americans?

*Joe Melita is a retired high school history teacher with thirty-four years of experience. He taught numerous college level (Advanced Placement) courses in both American and European history. He holds a bachelor's and master's degrees from Queens College in New York City.*

## \* **The Battle of Tulifinney: Defense of the Charleston to Savannah Railroad**

In the closing days of the Civil War, cadets from the Citadel (then The Military College of South Carolina) were called upon to defend the Charleston to Savannah railroad, known as the “vital rails.”

In early December 1864, the situation became dire for the Confederate forces of General Hardee as Sherman approached Savannah. Their only escape was via the railroad. The Citadel cadets joined the depleted confederate forces to prevent the capture of the railroad at a place known as Tulifinny Creek just twenty miles north of Beaufort. They defeated the U.S. Marines from the garrison at Hilton Head and escaped to fight another day.

*Chris Clayton is Historian for the Sons of Confederate Veterans and former President of the Lowcountry Civil War Roundtable. He is also a docent for the Honey Horn Museum.*

## \* **What Civil War Are We Talking About? Southern Honor and the Myth of the Lost Cause**

In the aftermath of a brutal Civil War, many southerners justified their sacrifice by creating a romanticized version of the War. Prominent people like South Carolina's Wade Hampton and LaSalle Corbell Pickett, widow of the famed Confederate General, promoted a version of the War that justified the South's secession, casting doubt on the real causes of the conflict.

This presentation explores this 19th century manifestation of "fake news" and its lasting consequences on the national memory and understanding of the Civil War.

***Ron Roth** was a historian for the Gettysburg National Military Park, and a Licensed Battlefield Guide at Gettysburg. He is the author of the acclaimed book *The Civil War in the South Carolina Lowcountry*. He received his bachelor's degree in history from Case Western Reserve University and a Masters-at-Teaching degree in Museum Studies from George Washington University.*

*(Use the back gate at the end of Squire Pope Road.)*

## \* **Poetry Workshop**

As Dylan Thomas wrote: *"Poetry is what in a poem makes you laugh, cry, prickle, be silent, makes your toenails twinkle, makes you want to do this or that or nothing, makes you know that you are alone and not alone in the unknown world, that your bliss and suffering is forever shared and forever all your own."*

Try your hand at "toe twinkling," guided by Audre Allison.

***Audre Allison** has an advanced degree in creative writing and poetry and has taught for thirty years at both high school, college, and adult writing workshops here and on Long Island for many years.*

## \* Scams, Frauds, and Schemes: An Update on What to Watch Out For

We all hear about how seemingly easy it is for "cyber-criminals" hiding in the digital cloud to swoop in and steal a person's or organization's identity, money, or take control of your computers and accounts, never to be seen again.

As an update to last year's session, this session will review popular and some of the newest methods these cyber criminals aim at individuals like us as well as the high profile schemes that have exposed the soft under-belly of security at our largest multi-national firms and governments.

Finally, we will review how you can easily protect yourself from falling into their traps with some basic ways to recognize and avoid opening your front door. You are encouraged to bring questions and examples.

*David Arnal is the former Director of the Master Beekeeping program for the South Carolina Beekeepers Association.*

## \* Four Vietnam War Movies

Not all Vietnam War movies are the same. The war provides the background, and the storyteller provides the tale, each as unique as human DNA or fingerprints. Vietnam veterans when first encountering another veteran of the war will ask “When were you there? Who did you serve with?” Once the context is established the story unfolds. Mike McDonell has selected four films each of which tells a unique story about “our war”.

**October 13: *The Sapphires* (2013)** A musical comedy-drama about four aboriginal Australian women who form an R&B singing group, decide to leave it all behind and head for Vietnam in 1968 to entertain the troops.

**October 27: *Jacob’s Ladder* (1990)** A psychological horror film in which Tim Robbins stars as a combat veteran whose experiences before and during Vietnam result in strange visions and hallucinations that continue to haunt him. He searches for the truth . . . and finds it.

**November 3: *84 Charlie MoPic* (1989)** A mock documentary that depicts a long-range reconnaissance patrol deep inside enemy territory. It is as real as it gets. And it was all shot outside Los Angeles.

**November 10: *Da 5 Bloods* (2020)** A war drama directed by Spike Lee and the last film in which Chadwick Boseman (*The Black Panther*) starred. Four aging Vietnam veterans return in search of the remains of their fallen leader and the treasure they buried with him.

*Mike McDonell is a Vietnam veteran and has been showing movies for LLLHHI for many years. He has been back to Vietnam four times and has a great affection for the country and its people.*

**Four Sessions: 1:30 to 4:00 PM, Fridays**

**The Cypress, Hilton Head Plantation, 20 Lady Slipper Lane,  
(Use the back gate at the end of Squire Pope Road. Passes will be called in.)**
